

Personal data collection.

The Manager makes sure that personal data collection is in line with data protection act.

This applies for personal data which is collected in person, by phone or in any other digital way and form.

Manager, while collecting data, whenever is possible needs to make sure he provides clear explanations about which data will be collected, for which purpose, what are the consequences if client doesn't agree and who we share your data with.

The stated above makes sure that clients have enough information for signing the agreement of personal data collection.

There are some situations where collecting of personal data needs to be done in implicit way like for example communication with support team or email enquiries.

Personal data storage

Personal data and all enquiries for each client are safely stored and can be accessed just by authorised personal like employees or contractors.

Personal data will be stored just for amount of time which is required to be processed.

Personal data which is not needed for processing anymore will be erased from our data collector.

We are saving personal data until the end of rent.
